DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6, 8-18, 20-29, 31-40, 42-46, and 57-58 are allowed.
2. The following is an examiner's statement of reasons for allowance

With regard to claim 1, Waldvogel discloses an information recorder (computer) including a cryptography means (new TEK) having a node key (old TEK) included in a tree structure (page 1619) in which different recorders are included as leaves (computers of group members) each having a unique leaf key (KEK, page 1619), the means generating a key based on data (the old TEK, which is hashed, 1619) which is renewed by the node key (1619). The encryption key is a first key when playback of multimedia (page 1614 paragraph beginning "with") is restricted, and a second when it is not restricted (page 1619). Waldvogel does not disclose tag data indicating locations in the hierarchical tree structure whose associated keys are encrypted within the encrypted data. This added limitation would not have been obvious to one of ordinary skill in the art, since Waldvogel does not give weight to the location in the tree structure of each group member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacob Lipman whose telephone number is 571-272-3837. The examiner can normally be reached on M-Th 7 AM-3 PM.
